

PARK VIEW

CEPC News from around the Park April 2017

- Old style visitors permits invalid
- Residents Forum Meeting
- Joint Patrols with Met Police
- Re-issue Resident's permits
- Gloucester Gate Refurbishment
- Chester Gate Garden Appeal
- Newly painted railings P. Square
- Royal Park's "Playscape"

New visitor permits in the park

Residents will be pleased to know that the new scratch-card style permits have thus far proved very successful in countering abuse of these types of permits. The new style permits can be purchased at the office or online: <http://www.cepc.org.uk/parking/visitor-permits/>. The old style visitor's permits are no longer valid and must not be displayed in vehicles parked on the estate. The deadline for the exchange of the old permits for new ones has been extended for a limited duration.

Regent's Park Residents Forum

There was a healthy turnout at last Regent's Park Residents Forum which was held on Wednesday 22nd February at The Regent's University. Items discussed were...

CEPC security working with the Metropolitan Police

As part of the on-going strategy to enhance security around the estate, CEPC security have been carrying out joint patrols with the Metropolitan Police to foster a closer working relationship. These patrols afford the police a greater insight into the daily challenges that the security team faces. It enables CEPC security to share information with the police and for the police to share advice and practical solutions that can be implemented by the team. The patrols are being carried out during both the day and night allowing the police to understand the variety of issues that occur around the clock. We aim to continue and build upon this initiative as part of the continual improvement of security on the estate.

Re-issue of Residents' permits

On 30th April 2017 all blue CEPC annual parking permits are due to expire. Residents will be contacted by email in March asking them to confirm their vehicle details we currently hold on file. Once we have received your confirmation email, we will issue you a new green permit. The re-issue of your annual permit remains free of charge. Any subsequent changes will attract an administration fee of £10.

Gloucester Gate Refurbishment

Essential maintenance was carried out on entrance and exit gates to Regent's Park at Gloucester Gate. The works involved removing and installing new gates, replacing LED strips and the resetting of support posts. Work is due to commence on the 27th March and will involve a temporary road closure in front of the gates. Further details will be circulated nearer the time.

Chester Gate Garden Appeal

Camden Council notified The CEPC that the owner of 6-10 Cambridge Terrace has made an appeal against the Council's decision to refuse planning permission for the introduction of a garden in the Chester Gate roadway.

Newly painted railings at Park square

"Playscape" at Gloucester Gate

The Royal Parks Foundation is inviting local residents in The Regent's Park to help restore the much-loved Gloucester Gate Playground.

After consultation with local schools and neighbourhood groups, new draft designs wish goodbye to the current bright metal and harsh surfaces and transform this community site into an exciting green space for young adventurers. Blending with the surrounding park and featuring innovative landscaping and natural materials, the playground will be fully accessible and enable children and young adults with restricted mobility to enjoy time with friends and family all together, not apart.

The Foundation needs to raise £1,000,000 to bring this inspiring project to life and care for it in the future. We would welcome support from Founding Donors before the public campaign launches in June. If you would like to find out more about the designs or make a gift in the UK or USA - please contact:

Support@RoyalParksFoundation.org or call Maggie on 020 7036 8060.
